

SafeMUSE would like to invite you to the international conference ARTIST IN RESISTANCE | ARTIST IN RESIDENCE and concert at Music Freedom Day, 3 March 2015 in the City of Harstad, Norway.

During this full day conference program we will be discussing freedom of artistic expression and safe placements of persecuted and endangered artists and musicians.

The event will gather a unique group of participants and delegates with different angles and inputs to this field, and will give us the opportunity to develop thinking, share knowledge and network in this area.

Harstad declared itself the world's first 'Safe city for musicians' in 2013, and received its first guest musician in December 2014. On this basis we want to celebrate Music Freedom Day in Harstad, gathering musicians, music organisations; host communities and organisations working in the field of freedom of artistic expression.

The conference and concert is organized by SafeMUSE in close cooperation with the City of Harstad, Culture Troms and Harstad Concert Hall.

The places for the first conference of this kind are limited, so please register now to ensure your seat.

We are looking forward to welcome you in Harstad!

On behalf of the organizers
Jan Lothe Eriksen
Project Manager
